PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With U. S. Patent Office,

WASHINGTON.

NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 11th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier;* he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington [illegible] as well as all personal trouble in obtaining their patents. They also have the advantage of consulting [illegible] their inventions, and [illegible] in respect to them, *matters, in general* [illegible] *to obtain correct* [illegible]. The experience [illegible] practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with records here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1848.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

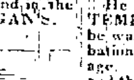
EDMUND BURKE,

Late Commissioner of Patents.

Nov. 7, 1848. 1Sept 850

New Hotel at Oldtown!

JAMES STINSON



Announces to his friends and to the public, that he has fitted his house commodious and centrally situated dwelling for a Public Hotel, and has opened the same to the public, with the determination that every attention shall be paid to the accommodation of the travelling community.

He gives full assurance that he will keep a TEMPERANCE HOUSE, and that nothing shall be wanting on his part to entitle him to the approbation of all who may favor him with their patronage. The House will be kept on a liberal scale, and the most assiduous attention shall be given to make the house a desirable and comfortable home for travellers as well as more permanent boarders.

It is believed that a Hotel of this description is greatly needed at Oldtown, and the public are invited to give it their support.

Oldtown, Sept 1, 1848.

LATEST AND BEST

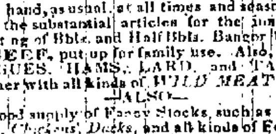
IMPROVED

Patent Bedstead.

THE Subscribers have purchased the right of manufacturing and vending HINKLEY'S IMPROVED PATENT BEDSTEAD for the city of Bangor.

This improvement is simple in its construction and consists in furnishing a substantial Bottom to Bedsteads which shall be elastic and have all the [illegible] of a Slat, or Sacking Bedstead, while at the same time, it serves to secure the posts and rails compactly together without other aid. It is fitted to the best Bedstead, old or new, with much [illegible] than the time required to put in a [illegible] gives great strength and support [illegible] keeps the Bedstead in proper shape. It [illegible] that this simple improvement, [illegible] take the place of every other [illegible] now in use. We can confidently recommend the above improvement to our customers and to the public as the cheapest, most substantial and best Patent Bedstead ever invented.

The Public are respectfully invited to call and see for themselves. SHAW & MERRILL, No. 65, Main Street, Bangor.



Old City Market,

ON hand, as usual, at all times and seasons, with the substantial articles for the inner man, consisting of Bbls. and Half Bbls. Bangor **PORK** and **BEEF**, put up for family use. Also, NEATS TONGUES, HAMS, LARD, and TALLOW, together with all kinds of *WILD MEATS.*

—ALSO—

A good supply of Fancy Stocks, such as *Turkies, Geese, Chickens, Ducks,* and all kinds of Feathered Game.

The above will be delivered in any part of the city, when requested, at short notice.

☞Cash paid for HIDES and SKINS.

MRS. E. KIDDER'S Cholera, Dysentery, —AND— Diarrhœa Cordial,

—AN—

Immediate and Perfect Remedy,

....FOR....

Cholera, Dysentery, Summer Complaints of Children, Diarrhœa, Sea Sickness, general Debility, &c.

WHERE this all powerful antidote is at hand, Cholera is no longer to be seriously feared, or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours, if taken at the commencement—

It has been before the public for more than seventeen years, and was the first article made known to the public as an

IMMEDIATE AND PERFECT CURE

OF THE

CHOLERA.

It has been thoroughly tested in every country and every climate, and to effect has everywhere proved the same;

SURE TO CURE,

even where the disease has advanced to its last stages.

CHOLERA.

Accounts almost daily reach us of the ravages of the CHOLERA, both at home and abroad, and of the little success which has thus far attended the attempts to check its frightful inroads on human life.

Such being the fact, it surely may be regarded as an era in modern discoveries that a medicine has been discovered possessing the power of checking the progress of the Cholera, and eradicating it from the system.

Mrs Kidder would most respectfully call the attention of the public to this invaluable medicine, known as her

"CHOLERA, DYSENTERY AND DIARRHŒA CORDIAL."

Many thousand lives have been saved by this medicine, when the disease had advanced to its last stages.

It is hoped that every housekeeper will keep the Cordial at hand, and, if timely administered but little danger is to be apprehended from an attack of the

Cholera, Dysentery or Diarrhœa.

This Cordial immediately checks the vomiting, relieves the pains, stops the Diarrhœa, and [illegible] however severe the attack may be, or however low the patient may have become it invariably restores.

The Severest Cases of Dysentery

are immediately counteracted, the pains allayed, the bowels healed, and not unfrequently the bowels become perfectly regulated and restored in the short space of ten or twelve hours.

Chronic Diarrhœa,

Either in children or adults, of months or years continuance, is most readily cured with this Cordial, notwithstanding they may be reduced to mere skeletons; it immediately strengthens, and shortly restores them to perfect health.

Cholera Infantum.

It has saved the lives of many thousand children when reduced to death's door by this complaint,—it gives them immediate relief, and they very soon recover.

Sea Sickness.

It is a most pleasant and desirable remedy for Sea Sickness. It checks the vomiting and readily restores the patient. It invariably checks vomiting produced from any cause whatever.

Children that are Teething,

if inclined to Diarrhœa, should always be provided with this medicine, as it will keep the bowels regulated and keep off the Canker. It is wholesome, safe and pleasant to the taste, and children are fond of it, and will take it without trouble or dislike.

For General Debility and Dyspepsia,

it is a most excellent restorative: giving a healthy tone to both the stomach and bowels, and prevents food from pressing or distressing the stomach.

The public may rest assured that it contains neither opium or mineral substances, or anything that is in the least injurious to the constitution.

CAUTION.

Be sure that you obtain MRS. E. KIDDER'S CHOLERA MORBUS DYSENTERY and DIARRHŒA CORDIAL, and you will get the only true and original article, which has ever been in the highest estimation by the public throughout the whole country.

It is put up in bottles holding nearly a quart, intended for family use, and sold at One Dollar per bottle.

MRS. E. KIDDER,

100 Court Street, BOSTON,

who is the inventor and sole proprietor. Druggists and Apothecaries supplied as formerly, in large or small quantities, and for sale by all her duly appointed agents throughout the world.

For sale in Bangor by LADD & INGRAHAM; GEO. McFARLAND; SARGENT & EMERSON; A. P. GUILD, and SILAS ALDEN.

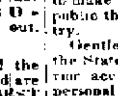
HALLOWELL HOUSE,

HALLOWELL, MAINE.



THE subscriber respectfully announces to his friends and the public, that he has leased this well known Hotel, and has made many important improvements and repairs. The house has been newly furnished throughout in a manner that will compare with any other establishment on the Kennebec. It is his determination to make it one of the best resorts for the travelling public that can be found in this section of the country.

Gentlemen with their families, and members of the State Legislature will be furnished with superior accommodations. The proprietor hopes by personal politeness and attention, to merit the support and confidence of the public. Connected with the House is a good Stable where careful and experienced Ostlers will always be in attendance.

Hallowell, March, 1849. BENJ HODGES.

Broadway School.

THE SPRING TERM of this School will commence April 16th.

The number of pupils is limited to forty.

Board in respectable families may be obtained for the sons or daughters of gentlemen in other towns, who are desirous of educating their children in this city.

Application for admission may be made either to GEO. R. SMITH, or the Teacher.

m27 tf REV. G. C. V. EASTMAN.

REMOVAL.

MRS. E. JORDAN

Begs leave to inform her old patrons that she has removed from **No. 23 Main Street, to 46,** *..Opposite the..* HATCH HOUSE, On the lower Floor.

Mrs J. here returns her thanks for the liberal and extensive patronage of the inhabitants of Bangor and surrounding country, and calls their attention to

THE FACT

That her Establishment was the first of the kind opened in this place

Sixteen Years Ago,

And with her vast experience and resources for obtaining improvements at the present time, render her Establishment superior to any in the city, and Mrs J. hopes to receive the continuation of that reputation which has universally been given her for the

Clear and fine Finish

of her Straw BONNETS.

With the large assortment of Straw Goods of her own manufacture, she is constantly receiving them from New York,—also from the

Home Manufactory

of DAVIS & BLAKE, Portland, whose new and improved facilities are such as enable them to sustain

THAT REPUTATION

for Style and Finish, which is acknowledged by all to be not equalled by any other Manufactory in the *UNITED STATES.*

In addition to her Straw Millinery Department, MRS JORDAN is prepared to furnish her patrons with all kinds of Silk Millinery, comprising Caps, Silk, Shirred Hats, Lawn, and Mourning do Hats, trimmed in an

Elegant Style,

by experienced Milliners, from a large assortment of the richest and latest patterns of Ribbons and Flowers just received from New York.

Mrs. J. also continues to clean and repair Bonnets in the usual style which is acknowledged by all to be the BEST. Particular attention is paid to the Bleaching and pressing of Gents. Leghorn, and Panama Hats. Also Ladies Lace Bonnets which are cleansed and finished in a manner that render them

Equal to New

and Ladies who may be desirous of having their Lace Bonnets repaired, may rely on having them done to their satisfaction or *NO CHARGE.*

Bangor, April 30, 1849.

ECONOMY IS THE ROAD

—TO—

CALIFORNIA.

THE subscriber would respectfully inform all those who are desirous to go to California, but find themselves minus the "TIN,"—that he has recommenced his business of

Tailoring and Clothes Cleansing,

—at his OLD STAND,—

0 Main Street,

And assures the public that they will find his establishment *the* road to commence to California; therefore, all who have soiled garments and would use economy, are requested to call at MURRY'S. He warrants to remove spots occasioned by acids, grease, paint, tar ink, and marks of all kinds, and press and finish the garments in a superior manner. His mode of cleansing Garments, is different from any in the city, as it does not injure them [illegible].

Repairing and altering done in the neatest style. His work will be done well, at reasonable prices, and with punctuality.

He respectfully returns his sincere thanks to the citizens of Bangor and the public in general, for the very liberal patronage he received while in business heretofore, and hopes by strict attention, and by superior skill in the business, (as all, who have favored him with their custom can testify) to merit and receive a share of public patronage.

Orders attended to in any part of the city.

J. F. MURRY,

June 7. 110 Main Street.

Wilder's Patent

SALAMANDER SAFES,

90 STATE STREET,

CORNER OF MERCHANTS' ROW.

Secured against Gunpowder

....AND....

WARRANTED NOT TO INJURE BOOKS OR PAPERS BY DAMPNESS.

THESE are the only Safes (WILDER'S PATENT) that have in every instance preserved their contents when exposed to large fires, like the burning of the Tribune printing office in New York city, and many others too numerous to mention.

The above Safes are manufactured and for sale by JOHN E. WILDER, Boston, and for sale in Bangor, at the manufacturers prices, by FISKE & DALE.

Dec. 4, 1848

Holden's Alterative and TONIC MIXTURE,

IS the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood.

Its action is that of a mild Alterative and Tonic, restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution.

By its use the appetite becomes regular and good, digestion perfect, sick head ache and many nervous disturbances growing out of imperfect digestion are generally cured; persons' debilitated constitutions become healthy and strong by its use.

By reason of the sympathy between the stomach and the skin, many diseases of the latter grow out of a morbid action of the former, even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine.

Many troubles of children, supposed to arise from worms, are caused by a deranged state of the stomach, and are removed by its use. Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it.

It contains no poisonous ingredient, and cannot in any case do harm.

Home Testimony

We, the undersigned, have ourselves, or in our families, used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended.

Gen Fuss,	Dogt Aaron Young, Jr
Albert Holton,	David Worcester,
Wm. H Vinton,	Simon F Walker,
Gen Hammett,	John Hughins,
G F Sargent,	O H Ingalls,
Isaac W Patten,	John Appleton

I have sold a large number of Holden's Alterative and Tonic Mixture the past year in this city, and have found it to give more general satisfaction than any article I have sold for the purposes for which it is recommended, and have received many verbal assurances of its extraordinary efficacy from persons whom I feel confident could not be deceived. Daguerreotypes—Daguerreotypes!

T. H. P[illegible]VY & CO.,

HAVING recently fitted up a Daguerrean Gallery, over the Post Office (up two flight of stairs,) take this opportunity to inform the citizens of Bangor and the public generally that they are prepared to take LIKENESSES in a superior style, at

Greatly Reduced Prices!

To prevent the inconvenience of having numbers in the room while persons are sitting for pictures, we have fitted up a large front room expressly for the exhibition of Pictures, and to accommodate company who visit our rooms.

MR. OLIVER whose experience and success in the art is unsurpassed, having taken upwards of six thousand pictures in this State, besides some thousands in Massachusetts and the Provinces, will give his personal attention to the business.

PRICES OF PICTURES.

In common Silk Cases	$1.00
In Velvet, from	$1.25 to $1.60
Larger Pictures, equally low	

We have just received a large assortment of *LOCKETS,* which we will sell, with or without Pictures at prices that cannot fail to suit customers.

We have the best light in the city for the business, and the public may be assured that all Pictures will be gilded and finished up in a manner which will prevent them from fading, and no one will be required to take a Picture unless satisfied with its execution.

COUNTRY OPERATORS

will find it greatly to their advantage to buy their STOCK of us, as we have made an arrangement with one of the largest importing houses in the United States, and can furnish French, German and American Camera and Stock of all kinds, better and cheaper than any other establishment in the State.

All kinds of Cases, Chemicals, Gilding, &c., on hand. INSTRUCTION given in the art on reasonable terms.

DOOR PLATES.

Messrs. T. H. P. & Co have in their employ a man to manufacture Door Plates and can furnish them at short notice, in the neatest and most durable manner with gold or silver letters, cheaper than can be obtained elsewhere. Specimens may be seen at our rooms. mar21

N. L. DOWN'S

Vegetable Balsamic Elixir,

The Great Northern Remedy for Consumption!

ALSO, the most effectual remedy in the world, for *Colds, Coughs, Whooping Cough, Croup or Quincy, Asthma, Pain in the Side or Stomach,* and all diseases of the LUNGS AND LIVER.

This medicine is purely vegetable, and is by far the most effectual medicine known, for all diseases affecting the BRONCHIAL OR PULMONARY ORGANS.

Its effect upon the patient is most marked, and differs from that of most medicines recommended for the same complaints, in the following particulars:

1st—It never irritates the organs it should soothe—never dries up the cough, leaving the cause untouched—but first *loosens the cough, increases the expectoration or spitting,* then removes the cause, *eradicating it completely* from the system, when as a matter of course, the *cough ceases,* and the patient is well.

2d—It never produces costiveness in the consumptive patient—on the contrary, it has a laxative effect and is a moderate cathartic. We defy the world to produce a case of costiveness so inveterate but that in two or three weeks (the patient in the mean time having proper regard to diet) [illegible].

3d—It does not produce a *dryness of the skin* but is a powerful promoter of *sensible and insensible perspiration,* thus expelling by the pores of the skin, those numerous fluids and impurities of the blood, the retention of which in the system is the *sure precursor* of DISEASE, SICKNESS, AND DEATH.

We do not pretend that DOWN'S ELIXIR is a specific for all the ills that flesh is heir to, but we do say, and can confirm by incontestable evidence, that for

CONSUMPTION,

And all diseases of the *lungs, the liver, and the pulmonary organs,* it is *unrivalled—unequalled;*—HUNDREDS have been snatched from an UNTIMELY GRAVE, and hundreds who *delayed too long its use,* have found, in the advanced state of their disease, that RELIEF FROM SUFFERING, which they had vainly sought from every other source.

This INVALUABLE MEDICINE is *highly concentrated* and put up in 2 oz. and 4½ oz. bottles, at fifty cents and one dollar per bottle, and each bottle warranted to contain MORE CURATIVE PROPERTIES than four bottles of any of the *weak, adulterated* pint bottle preparations of the day.

We have received *hundreds of certificates* of its wonderful cures, from every part of the country, many of which have been published *and may be had gratis of any of our agents.*

Sold wholesale and retail by CURTIS & SMITH General Agents, ST. ALBANS, VT., to whom all orders for supplies of the medicine should be addressed, (stating the best mode of sending it)—also, sold by agents in nearly all the villages and towns in the country.

It is also sold, at wholesale and retail by David Hughes, G. W. Ladd, Curtis & Perkins, A. P. Guild, Wm. Mann, G. McFarland Bangor; L. S. Smith, J. W. Curtis & Co., Hampden; Chas Johnson, J. B. Chick, Frankfort; H. P. Fifield, Bucksport; J. Hooper, Jr., S. P. Hatch & Co., Castine; B. Nourse, Geo. Parcher, Ellsworth; E. P. Butler & Co., Orono; J. & R. Fisk, H. & J. Y. Richardson, Oldtown; Wm. O. Poor, Belfast; Chas. A. Macomber, E. T. Stocomb, East Thomaston.

DR. SPEAR'S

SO MUCH CELEBRATED

Indian Vegetable Medicines,

ARE Universally Acknowledged to be the Safest, Cheapest and Most Effectual Remedies for the various Diseases of the human system, ever offered to the public. They can be relied on with confidence to cure all curable cases. Their action is immediate and thorough, eradicating disease in its worst forms—Thousands who have been pronounced incurable by their Physicians, yet live, to testify to the virtues of these extraordinary preparations, having been restored to sound health by their use.

We will name here some of the principal Medicines and their uses, referring the enquirer after health, to the "FAMILY PHYSICIAN," a work edited by Dr. J. S. Spear, where may be found a brief treatise on the origin and nature of the principal diseases which afflict humanity; directions how to preserve and restore health, together with some certificates from highly respectable persons, testifying to their healing virtues and urging their importance. This book can be obtained of Dr. Spear's Agents, free.

BALM OF LIFE, Nos. 1 & 2.—For Consumption, Dyspepsia, Indigestion, Liver Complaint, Debility, Nervous Affections, Phthisic, Asthma, Palpitation, Bronchitis, &c.

CATARRH SNUFF.—For Consumption, Catarrh, Cough, Headache, &c.; this is a certain cure for catarrh, and surpasses any other preparation for cleansing the head in cases of colds, &c. THE LIVER WORT PILLS, have been for a long time considered universal medicine. A trial of one box will satisfy the patient that they are the best purgative known—They remove the most severe colds, coughs, pains or fevers, if taken in season. SCROFULA SYRUP.—This is one of the most effectual agents in use for cleansing and purifying the blood. It removes every impurity from the system, whether of a scrofulous or cancerous nature. It is a compound of seventeen ingredients, and of a purely vegetable character. For efficacy and safety it cannot be surpassed. CHOLERA MORBUS AND DYSENTERY CORDIAL, if used according to directions, a cure is warranted in every case for which it is recommended. GERMAN LOTION is warranted to cure the Salt Rheum in its worst forms. TONIC CORDIAL is one of the most powerful tonics ever discovered; it is the best female medicine to be obtained. WOMAN'S FRIEND, for the falling of the womb. This is the only remedy before the public for this purpose. It obviates the necessity of resorting to instruments, and is unquestionably an certain remedy. EYE WATER [illegible].

All the ingredients of the above Medicines are furnished by Nature herself, and are combined in accordance with known principles universally received as sound by all scientific Physicians.

Their merits have been acknowledged by thousands. They have been tested and proved to be equal to the commendations claimed for them.

If a fair trial fails to restore health, so confident is the proprietor of their efficacy, that the expense of any other means which does effect a cure will be paid, provided it does not exceed one hundred dollars.

NEW AND

Important Discovery

GRAY HAIR can be restored to its original color, or, whether Auburn, Brown or Black; Sandy, Light or Red Hair can be matched with any darker shade, surpassing in beauty even the most natural looks, retaining the gloss and softness of the original Hair, by using O. M. Ballard's

Permanent Liquid Hair Dye,

Of one preparation, which is entirely different from all other preparations of Hair Dye now before the public. Is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant, and color it with the Dye, which will not impair its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is not injurious. On the contrary, it improves the lustre of the Hair, promotes its growth, and prevents it from falling out, and unlike other preparations, after the Hair is colored and dry, will not crock, fade, or wash out.

In short, from its peculiar delicacy, softness, and easy application, it is worthy the attention of all who may wish to improve the color of the Hair, as it will make any shade, from a white to a jet black. It is now used to an unaccountable extent, by persons who have prematurely turned gray, and others whose Hair is of no desirable color, which they restore or exchange for a beautiful Auburn, Brown or Black, without any additional preparation or the slightest trouble.

John S. Sayward,—Editor

FRIDAY, SEPTEMBER 21, 1849.

Accident at the High School House.

While Messrs Files & Thompson contractors for building the High School House for Girls, were engaged with their workmen in raising the frame of that building on Wednesday afternoon, one of the stones in the cellar, upon which one of the supporting posts rested, canted, causing the beam to break, and letting one third of the lower and second flooring fall into the cellar with a crash, carrying eleven men who were upon the second flooring. The men were tumbled together with about one hundred sticks of timber and joists and yet every man escaped alive and not a bone broken. One man's shoulder was put out of joint, Mr Webber received a bad flesh wound in the face, Mr Wheeler's side was injured, Mr Williams injured in the stomach, Mr Files, Capt Maxim and several others were more or less injured but none of them very seriously wounded.

There was probably the usual caution in securing the beams by posts, and had not the stone under any of them canted all might have been well, but the usual caution is not enough and buildings for safety and durability ought to be altogether more strongly supported than that frame now is, or so at least it seems to us.

☞ The manufacturers of the State of Georgia have recently held a public convention to consider what measures they should take to promote the interest of manufactures there.— The convention represented almost three millions of capital and a large interest of labor.— The convention after mature deliberation recommended the formation of an association to collect information, historical and statistical respecting the manufacturing interests and resources of the State. It is found there that the whole interests of the industry of the States is intimately connected with that of manufacturing, and the object seems to be to bring into harmonious action all these interests. Manufactures are increasing in Georgia and this movement will be highly favorable, as it will, among other important matters, show that necessity and policy and justice of the general government so shaping its legislation as to secure the American market to American labor at fair remunerative prices against foreign competition. If the government fails to do this in all the early stages of manufacturing here, it is in effect granting a monopoly to the established and overgrown manufacturing interests of pauper ridden Europe.

☞ Within a few days we have received from our friends, several beautiful specimens of fruit, for which we would return our thanks. Each specimen is an argument in favor of the soil and climate of our city, for the production of many of the choicest fruits, and of all the common garden vegetables.

Among those who have favored us, we must mention Mr Beacroft, who raised many kinds of excellent apples and vegetables of all kinds, in great perfection. ... handsomer dish of fruit ...

Nathaniel Lord Esq has been very successful in raising plums. He has on one small tree, thirty-six large Washington plums, within a space of 16 by 8 inches.

James McLaughlin has raised, this year, in his garden, on Cedar street, over forty bushels of choice plums. His McLaughlin and Penobscot plums are of the first order.

Mr Philbrook, in that part of the city known as Barkerville, has been very successful in raising large and rich tomatoes, as we can well attest.

Oren Favor Esq, of Brewer, has handed us some beautiful specimens of Duane's purple plum.

It is not a season when one feels very courageous in eating fruits very plentifully, but the rich, ripe, and fine specimens we have had from these growers, were exceedingly tempting. We agree, most fully, with the remark made at the late Horticultural exhibition, that our people have succeeded in securing a beautiful variety of fruit and now all hands must engage to produce the requisite quantity for the home and the foreign market.

☞ The city authorities have directed the City Marshal to report the number of cases of cholera occurring in this city, and also the number of deaths. This he has attempted to do in good faith, but within a few days, it is understood, that only a portion of the cases are reported, although all the deaths are reported without fail. We think it altogether better therefore, for the Marshal to omit publishing the cases, but to keep an accurate record of the deaths.

The publication of all the deaths and only half a quarter of the cases has a very unfavorable effect as showing greater mortality than exists, for the fact is that many who are attacked with the symptoms of cholera and have immediate attention are cured in a short time.

Commander Randolph and the Round Islanders.

Commander Randolph, in a private letter to a friend in New Orleans in relation to the comments of the New Orleans press on the stringent measures adopted by him against the Round Islanders, complains of being misrepresented by the papers, and says

"It is entirely false that any provisions have been stopped which were sent to the men on Round Island. On the contrary, when they were in a starving condition, owing to the indifference or inability of their leaders in sending them supplies, we took pity on them and fed them from our vessels for two days."

Commander Randolph further says that he regrets that anything was said in his notice about cutting off supplies, but adds that "this was not enforced." A postcript to the letter reads as follows:

"Were you to see my instructions you would not blame me, excepting for the stoppage for provisions—*on paper*."

English railroad iron is now selling at about $40 per ton in our market. In consequence of this extreme low price all the rolling mills in this country have given up the making of rails in this country and will not commence the work again until the price goes up to about $50 per ton. The English manufacturer therefore has control of the market if they reach this point, and it is not reasonable to suppose that, as he can have $50 per ton without the risk of American competition, he will long continue to sell at $40.

☞ H O Burleigh of this city has recently taken passage for California in the ship Hampton from Bath.

Cholera in Bangor.

Thursday Sept 20 1849, 7 o'clock P M.

Number of cases reported 12
Number of deaths 9

Phebe Lawson, colored, John D Kilby, Dennysville Medical Student Lawrence, son of John Carroll, at Hospital, Mrs Daniel Crowley, Mrs Douglass, exchange street, Mrs Hangley, Rufus K Jones; Mrs Samuel Jordan; Mrs Margaret Coyle.

H B FARNHAM, Health Officer

☞ Messrs Philips, Sampson & Co of Boston have just published the first American edition of Lamartine's History of the French Revolution of 1848. The freshness of this work the recent historical events which it records and the name of its distinguished author will secure for it a ready perusal as well as satisfy all of its quality.

The work is for sale in this city at David Bugbee's Bookstore.

☞ We notice that the difficulty between the United States and France and the dismission of the French minister, an account of which we published yesterday, is fully confirmed and has produced an effect in the money circles in Boston and New York.

It is supposed that the impertinent note of the French minister alluded to "the course of the present rupture in the relations of the two countries was in relation to the appointment of Mr Rives as minister to France.

Dinner at Plymouth.

The Boston Atlas states, that about one hundred gentlemen sat down to a sumptuous dinner on Monday, at the Samoset House in Plymouth to celebrate the embarkation of the Pilgrim Fathers from Delfthaven. The chair was filled by Hon Daniel Webster who made an excellent speeches. The meeting was also addressed by Hon Edward Everett, Hon Robert C Winthrop, President Wayland, and others.

The Cincinnati Times says that the Eclectic Medical Institute of that city has taken the lead in doing away with professional discord, by establishing a professorship of Homœopathy. The faculty of this school have no fear of investigation. They desire their students to investigate all things and ascertain the truth for themselves.

☞ A correspondent speaks in the highest terms of approbation of the Sermon for the times, delivered by Rev Mr Maltby, on the last Sabbath morning, and suggests that the author be requested to repeat it. We think very favorably of this suggestion, from what our correspondent and other friends say of the discourse, and we should be pleased to give notice of the time and place.

The Governor of Virginia has appointed the 8th of November as the day for holding a special election in the counties composing the 13th Congressional district, to fill the vacancy occasioned by the death of the late Alexander Newman.

☞ Seventeen of the Penobscot tribe of Indians have been swept away by the cholera, and eleven persons of the little French settlement of only twenty-seven persons, located in Oldtown but which has since been broken up.

The Hampden Mass Com which went through mining regions and were digging with good success.

☞ The fear of trouble between France and this country, consequent upon the dismissal of Poussin, the French Minister, had a desperate effect upon Stocks, and the money market in New York.

The Lake Superior News of the 8th inst states that the Propeller Independence came down on the 31st with 150 tons of copper, from the Cliff Mine—all in solid masses—destined for Pittsburg.

☞ The foreign steamer's news was passing over the telegraphic wires on last evening and consequently we could not obtain our despatches.

☞ Contrary to our hopes and expectations we learn from the People's Press, that the Whigs have failed to elect their Senators in Somerset County.

☞ Frost has appeared in this vicinity for several mornings past. It is time now to secure tender plants which have been planted out for the summer. Vegetation has not suffered much as yet from the frost, and we believe that all the crops are now out of danger from the grasp of the old Jack.

☞ We learn that Rev Mr Hedge, of Union street church in this city has received a call to settle over a parish in Providence R I, and also one in Cincinnati, Ohio. It would not be pleasant to lose Mr Hedge from this city, and we therefore hope he may remain.

☞ The annual cattle show of the Penobscot Agricultural Society, will be held at Levant Village on Wednesday, the 26th day of September. Great efforts are being made in several quarters to get up a capital Fair.

☞ The New York papers report the death of Charles W Holden proprietor of Holden's Magazine, who is stated to have died on the Upper Sacramento in California, of bilious dysentery. The relatives of Mr Holden in Boston have not received any intelligence of his death, neither do they credit the report.

☞ The Calais Journal groans badly on account of one of its party being removed from the Post office at Orient, which paid only forty cents a quarter. The love of office must be very strong with those who can sniffle over so small a loss.

☞ Thanks to Mr Lowell, and Mr Cushing of the steamer Governor, for papers received on yesterday in advance of the mail.

The object of all ambition should be, to be happy at home. If we are not happy there, we cannot be happy elsewhere. It is the best proof of the virtues of a family circle to see a happy fireside.

☞ We learn that the potato disease has made its appearance at Orrington on the farm of the Messrs Goodale and that some of the fields along on the road thither show that the potato leaves are blighted.

Five of the great capitals of Europe are now under military law, namely Paris, Vienna, Berlin, Rome, and Naples.

☞ The accounts from California, particularly from those just arrived in the country, and to whom gold and the excitement of the high wages and life on shore are all so new after a tedious voyage, are quite cheering and hopeful, indeed exciting. But take the accounts together and this fact is apparent, that he who digs gold must perform hard labor in a broiling sun at some risk. At San Francisco every law of trade is knocked into a cocked up hat. Nothing is regulated. To-day provisions and other goods sell for a song when in a few weeks they may command a world of wealth. The greatest danger now is, according to the best high we can get,—that there is danger of the people there starving for the want of provisions. Nobody will ship provisions or goods at a loss, and as affairs now are, those who have sent large ships there, about lose ship and cargo. It will take some time to correct this, and in the mean time there may and probably will be a scarcity of provisions and other goods.

We will give a few extracts from letters from those who have been in the mines. One writer in the New York Tribune says:

"This river is still so high that we are unable to work the bars or banks. Old miners, who will not work on less than an ounce, are hoarding up their strength for the Fall campaign, while I with other new-comers, think it best to earn our half ounce, and learn the trade at once. The heat is intense. Not a wrinkle to be seen upon heaven's front from February to December, while Sol smiles his everest. My neck, arms, hands and feet are blistered. Reversing the wise maxim of old Galen, to some young Galen, which enjoins upon those who love health to 'keep the feet warm and the head cool,' we are obliged to stand knee deep in the water, and exercise the arms and back, while the heat and chest are subjected to a cross firing of red hot rays from above. I am working upon sharp slate-rocks which are burning hot at mid day, without shoes—sometimes raining perspiration, and, after an hour or two of canal digging labor with the pick and shovel, jumping into the water singing hot for the purpose of 'panning out,' with the thermometer ranging from one hundred and upward. This operation is generally performed middle deep, and in the elegant position of the *douche*."

Again we have the following account from another correspondent of the same paper:

"The labor of gold-digging and washing is exhausting in the extreme. Thousands who come out here brim full of hope and courage are bringing their exuberant stock to a poor market—for after divesting their white hands of their white kid gloves, and working *a la mode* for one week, your amateur dealers in gold dust find themselves bankrup of mental 'pluck and physical strength and leave in disgust, some (grown already wayworn) for home, but many to hunt down the *ignis fatuus*. These unfortunate sportsmen will only be in at the death of their own unreasonable expectations.

'Anybody can make from five dollars to an ounce of gold per day, but he must work faithfully and diligently, or he is as likely to make nothing as a buyer of lottery tickets is to purchase a blank.'"

An overland emigrant writes from Sacramento City, July 22d, to the Providence Journal, that he has visited the American, Middle and North Forks, of the Sacramento. He says, At any location on the banks of either of those streams, a man can take from one to three ounces of gold per day. Such was the average amount collected by the members of our company. Even hired Mexicans, make this average. I have however, quit gold digging, and am engaged in purchasing goods to take up to dust taken on the American Fork. It is finer than that we find on the other forks. I am told that, on the Feather River, it is as fine as sand, while on the Estanislaus it is found in lumps.

A letter in the Newark Advertiser, from a member of an Overland Company, which arrived after suffering great hardship says—Barlow's party have bought a rich bar on the Juba river, for 1000 dollars, which yields to a man with a small cradle 6 oz. of gold per day. They are comfortably established in a beautiful spot on the river, and are making money very rapidly.

The Newburyport Herald contains a number of letters received from former citizens of that town, now in California, which furnish some items of interest. Mr Jacob Stickney, Jr writes "A great many articles are still very high here. Pickles, put up in glass jars, holding 2 quarts, we could sell to the shopkeepers for $2 75, large size tin pans sell for 4 or 5 dollars; dried apples, 50 cents per lb, camphor 12 dollars per lb, sheet iron, 50 cents a square foot. Our boat we could have sold for 800 dollars and perhaps 1000, if we had been willing to sell it.

Capt John Bradbury writes that he is living in his own tent, well, at about 50 cents a day, by doing his own cooking. That the boys of two New York young men, butchers, at from 12½ to 18 cents a pound for steaks, and salt pork a from 20 to 25 cents per pound. Property, he says, although very much exposed, is respected. Numerous little kind acts are exchanged, daily and hourly, which speak well for human nature. Bricks, he says, which have been selling at $175 a thousand, were selling there (July 20th) at $50 a thousand. There was wood and good clay in abundance. He adds "I saw cannisters of pickled clams, holding about one quart, put up by Lewis, of Boston, selling at $30 per dozen, and I have just dug a better article, here, opposite my tent, (free to every body.)"

Recipes for the perfect preservation of Green Corn and Tomatos.

Recipe for preserving Green Corn to be eaten at any time of the year. Take sweet corn in the milk—boil it as if you were going to eat it—cut it off the cob and sprinkle on a little salt—put it into tin canisters holding a quart, having a hole in the top as large as a cent—fill the canisters, and then have a circular piece soldered over the hole. When you would eat it, unsolder with a hot iron—turn out the corn and heat it in a little milk and water. It retains the perfect flavor of green corn.

Recipe for preserving Tomatos. Pour boiling water on ripe tomatos and peel them. Cut them up and put them into two quart tin canisters, each having a hole two inches in diameter in the top. After they are filled have a circular piece soldered over the opening, leaving an awl hole. Set the canisters into a kettle of boiling water for twenty minutes—stop the awl hole with a spile of pine—finally when they are cool, cut off the spile even with the tin, and drop a drop of melted sealing-wax over it. On opening your canisters you will have tomatos in perfection at any time of year.

N B. Sprinkle a little salt and pepper on the fruit previous to packing in canisters.

A SUBSCRIBER.

Death of a School-Boy.

Died, in this city on the 12th inst., Stephen W son of J S and Jane P Kimball, aged 11 years and 5 months. By his death we are forcibly reminded of the uncertainty of life. He was an active, sprightly boy, and to his teacher an interesting scholar, to his school mates a welcome and pleasant companion. He was a very attentive learner at the Sabbath School, and although of a buoyant and cheerful turn of mind he frequently conversed with his friends about the shortness of life and of the anticipated joys of the future.

On the Sabbath previous to his death he assisted in singing his favorite hymn,

"I would not live alway."

Thus suddenly from joyous life was this loved one called in conformity to the voice of Him who hath said, "Suffer little children, and forbid them not, to come unto me, for of such is the kingdom of heaven." Parents mourn not, your loss is his great gain. His memory will be cherished with pleasing recollections by his numerous friends and associates. R

Letter from Father Mathew to the Mayor of Lowell.

We copy from the Lowell Courier, the following beautiful letter, written by Father Mathew to the Mayor of Lowell, just as he was leaving that city, where he had been spending several days in his labors of love.

LOWELL, THURSDAY NIGHT, Sept. 13th, 1849.

To his Honor the Mayor.

MY DEAR SIR.—The high estimation that I had always entertained of the rapid growth of Commercial enterprise and Industry, for which Lowell is so pre eminently distinguished, is in no small degree enhanced by the gratification afforded me, of personally inspecting your extensive and flourishing Manufactories. I have been equally delighted and astonished at the Fabrics submitted to me as specimens of *Native Manufacture*. The spirit of laudible emulation to develope to their fullest extent, your industrial resources, affords the best earnest, that at no distant day, America will have reason to be as justly proud of the products of her Looms, as she now is of her widely spread and rapidly extending Commerce.

But to the Moralist, the aspect of your factory population, possesses a still deeper interest. You have proceeded far in the solution of a most difficult social problem. You have proved to a demonstration, the important fact, that the humblest operations of industrial activity, are perfectly compatible with a high standard of Christian morality, of intellectual refinement, and conscious self respect. Your factory operatives, amounting to nearly fourteen thousand, may fairly challenge comparison on these points with any similar class in the world.

The air of comfort, happiness, and health so visible in the appearance of the men, and the taste, industry, and intellectuality, which characterize the female assistants in those busy hives of National wealth and industry, are features as novel as they are interesting, to the friend of human progress. It was the boast of Italian Royalty, that it annually bestowed a marriage dowry, on a few unportioned females. Into what paltry insignificance does this puny specimen of Regal munificence sink, when compared with the great fact, that many of the ladies of America, who now as wives and mothers, adorn the domestic circle, have laid the foundation of the wealth and comfort, not by a debasing dependance on Prince or Noble, but by the exercise of their own industry and labor, in those extensive Manufactories, of which, not only your city, but the whole Republic, may feel justly proud.

I feel honored by my public introduction to the enterprising citizens of Lowell. To you, dear sir, and to my esteemed friends Doctor Huntington, Mr Patch, Judge Crosby, Judge Washburn, Ex-Mayor Bancroft, and the other gentlemen of the committee, permit me to convey my grateful thanks for your kindness and courtesy, and to Messrs Wright & Perry, agents of the Lowell and Middlesex Mills and to Mr Prince, of the Merrimack Print Works, for the high gratification I experienced in inspecting the Carpet Works, and establishments, have seen and the politest attention and courtesy.

I have the honor to be, my dear sir,
Your devoted servant,
THEOBALD MATHEW.

Some of the lark, young men, passengers on board the ship Hampton, for California, cut up some queer shines before they left Bath. It is reported that the town of Whitefield is minus one field piece on their account, and that a fugitive from justice was successfully secreted on board, and got off in the ship. [Hal Gaz.

A little boy in Salisbury, Conn, was recently killed by a calf which he was driving home. He had fastened a rope round his body which was tied to the calf's horns, and the latter ran away, and he was dragged until he died.

The editor of the Ohio Cultivator, after passing through the principal agricultural sections of the State, reports a perfect failure in the wheat crop of the State. The corn crop, which is the greatest staple, is abundant, and has a glorious yield. Hay is abundant. Buckwheat yields very largely, and potatoes promise every where a healthy and abundant crop.

One line, and one fraught with instruction, includes the secret of final success—be prudent, be patient, and be persevering.

A late English paper says "It is a remarkable and significant fact that all the later improvements in cotton weaving machinery have come from the United States."

For the Whig and Courier.

Thomas's Hill.

Spring has come and gone,
Summer's run along,
Autumn is taken up the race
And Winter's coming on apace.

What of Spring and what of Fall?
Each in turn is best of all,
If we are as we ought—
More than this, I know of naught.

Hammer iron, push the plane,
Hoe the corn or plough the main—
What is needed more than each?
Wanting, what would fill the breach?

Each employ will give thee HOME,
Farm or work shop of thine own,
And in each well followed, too,
Men have prospered—why may not you?

Dr. Shaw on Consumption.

There is, perhaps no disease with which our country is affected, which sweeps off annually so many victims, as that fell destroyer of the human race, Consumption. What a vast amount of suffering might be saved the human family, if they would but avail themselves in season of the remedies which Nature has provided for her children and which Science has educed to such a form as to be within the reach of all. For he [who] trifles with this painful disease ... offering you a remedy we do not ask you to rely upon the representation of those who might be actuated by selfish and pecuniary motives but we give you the deliberate testimony of some of the most respectable physicians, that Wistar's Balsam of Wild Cherry has established for itself a reputation that cannot be assailed. Dr Wm A Shaw of Washington, N C, writes, under date of May 1 1848 as follows:—

"I have heard of many cases of decided beneficial effects from its use, especially in Asthma, and Chronic Cough of spasmodic character. I have used the Wild Cherry a great deal in practice, and with marked good results in those cases of great nervous mobility and irritability, to which phthisical patients are subject. I have no doubt it is the best form in which the effects of Prussic acid may be had as a sedative on the constitution without danger of the patient. Every one knows the reputation of the Turpentine and Balsam constituents in protracted coughs. The combination of these principles in Wistar's Balsam of Wild Cherry is ingenious and judicious.

"Medical men are justly distrustful of Patent Medicines in general but candor must discriminate between outrageous humbugs and nostrums and those medicines which have proved salutary, and in many well attested cases, curative."

None genuine unless signed I BUTTS on the wrapper.

NOTICE.

BOOK BINDING.

I WOULD most respectfully suggest to my friends and those who have usually patronised me, that I still continue in the Binding line at the old stand called the East Side Bookstore and Bindery,—now called the East Side Book Bindery at which place I shall stick out a short time, and shall be most ex- tremely happy to see my old friends and customers bringing in their Periodicals, Music, &c., to be bound, which shall be done in a neat and faithful manner and as cheap as any other binder in Ban- gor, if it is 12½ cts per vol.

P. S. Prices to correspond with the times, and I defy competition. Come out with your pri- ces! Specimens of binding can be seen at my Bindery. Orders from the country punctually at- tended to.

☞My friends and the public generally will please receive my sincere thanks for their patron- age during my sojourn in this city.

Yours Respectfully,
jy 31 W. F. STANWOOD.

HENRY C. WILLIAMS,

No. 3, East end Kenduskeag Bridge,

HAS now on hand, and is constantly manufac- turing BOOTS and SHOES adapted to this market and which for good Stock and work- manship cannot be excelled.

—ALSO—

On hand, and is constantly manufacturing

TRUNKS

of all the various kinds, some very heavy and firm, calculated to endure the hardest usage and to last time out of mind.

The attention of the public is particularly called to this establishment, with the assurance that for ready pay they may rely on getting the worth of their money and of getting what they buy.

Among his Stock may be found

Valices, Coach and Chaise Whips,
Horse Nets, &c.,

All of which will be sold at great bargains.

DR. POLLARD'S MEDICINES.

I HAVE this day constituted and appointed SI- LAS ALDEN, No. 4 Gothic Block, Main Street, *(under the Hatch House,)* my only author- ized agent, (within 15 miles of the city of Bangor) for the sale of my Pile, Humor, and Pin Worm Medicines, which have effected many cures where all other remedies had failed. They have given the greatest relief, and general satisfaction to those who have used them, of any Medicines yet discov- ered. The Proprietor and Inventor having been for more than 25 years previous to 1846, one of the greatest sufferers in the world, from Canker, In- ward Humors, and Cutaneous Diseases, and with the Piles, especially, has suffered beyond all de- scription; therefore he knows their good effects from personal experience. All who are troub- led with the above complaints are more or less af- flicted with the Palpitation of the Heart, Rushing of Blood to the Head, Dizziness, Kidney Com- plaints, Scalding of the Water, Costiveness, Fe- male Difficulties, which originates from those trou- bles. Those wishing for my services, or Medicines for any of the above Complaints, can find me when not of the city) by enquiring at R. K. HARDY'S, No. 3 Harlow's Block, SILAS ALDEN'S, No. 4 Main Street, or at my house, Spring Street.

I do not claim, (as many have done) to cure all Diseases that human flesh is heir to, but will in all cases of the Piles warrant a cure for any reasona- ble sum, in 60 days, or charge nothing, providing the patients will come to Bangor, where I can see them once in two or three days.

A. W. POLLARD.
Bangor, August 13, 1849. d&wtf

SECOND SEASON —OF— KNIGHT & STREETER'S DANCING ACADEMY.

MESSRS. KNIGHT & STREETER re- spectfully inform all interested, that Sub- scription Papers for their proposed Adult Classes, may be found at their Hall, No. 3 Main St., and at Bugbee's Bookstore. A variety of new dances will be introduced, and their personal attention will be given to each pupil.

The following list of Dances will be taught.

'Standard,' 'Polka,' 'Waltz,' 'Minuette,' 'Ga- votte,' and 'Star Quadrilles,' 'Ball Room' and 'German Schottisch' 'Polkas,' 'Alemand,' 'Ger- man Schottisch' and 'Hopser' 'Waltzes,' 'Galope,' 'Polka Mazourka,' and 'Redowa,' Jenny Lind Vi- elka,' and a variety of Fancy Dances.

DR. PEARSON'S
CARMINATIVE BALSAM.
Great Cholera Preventive.
THIS article should be in the possession of every person travelling It has never been known to failed producing the happiest results in cases of Cholera Morbus Diarrhœa &c and during the prevalence of the CHOLERA in this country been performing wonderful Cures though it is recommended more particularly as a PREVENTIVE but if useful in any stage of the complaint It taken immediately upon the appearance of the Diarrhœa which is generally the premonitory symptom of Cholera no fatal disease may be apprehended in the least More than 5000 Complaints of children it has no equal Dr P has made use of this remedy in his practice for near 10 years with the most remarkable success Price only 25 cents per bottle
It is certainly the most beneficial remedy for the cure of Dysentery, Cholera Morbus and Summer Complaint, that is known to mankind Parents will find it the best medicine that can be used for young children and infants And every person who is travelling in the summer months should not be without a bottle of it in their possession, as it is an infallible remedy against the change produced in the system by drinking bad water
We annex the following certificate of Mrs A M Swanford of New York in reference to this ... Carminative Balsam We might add a long list but consider this sufficient
This is to certify that I have used Pearson's Carminative Balsam and confidently believe it to be the best I can say that can be used for the various diseases for which it is recommended at this season of the year I have had it in the summer months, and mothers for the feeding and crying of infants for which it is a certain cure
